EXPERIENCE

Software Engineering Intern

Facebook Summer 2018

- Design/Develop a tool to automate the integration of other teams with the platform responsible for handling all messages and notifications in Messenger.
- Reduce onboarding time from days to hours

Data Engineering Intern

Pinterest Summer 2017

- Save developers time by automating the often error prone setup of a data pipeline for new kafka topics
- Created a unified configuration file for all services included in the pipeline to prevent inconsistencies

HackNY Fellow / Full-Stack Web Intern

Skillshare Summer 2016

- Partnered with designer to develop front-end and back-end for new features on the web platform

Student Software Engineer

Rutgers University Summer 2015

- Helped develop a backend to generate and grade quizzes for ~10,000 students enrolled in a Chemistry or Mathematics class

RESEARCH

Rutgers University 01/17 – 08/18

- Created data visualizations and regression polynomials to predict future trends
- Developed and tested SVM classifiers for detecting road types based on the type of traffic they received

SKILLS

- Python 2/3, JavaScript ES6+, Java, C, PHP/Hack, HTML, CSS
- React/Redux/Relay, Flask, MySQL, Heroku, D3, Kafka

EXTRACURRICULARS

Teaching Assistant

Rutgers University 09/16 – 05/17

- Lead five classes of 15 students each in Introduction to Computer Science
- Conduct workshops, provide tutoring, and grade assignments

LCSR Tutor

Rutgers University 09/15 – 05/18

- Tutor students in Data Structures, Computer Architecture, Systems Programming, and assist with debugging

Mentor

Rutgers USACS 09/16 – 05/18

- Help my mentees to develop their skills in Computer Science by building projects, attending hackathons, and providing advice

PROJECTS

notes-cli Allows users to make notes and query them from within their shell

Tabbo Chrome extension that simplifies tab management
