

Education

B.A. Computer Science	Rutgers University	2014 - 2018
------------------------------	---------------------------	--------------------

Work Experience

Software Engineer	Open Source (github.com)	2025 - Present
--------------------------	---------------------------------	-----------------------

- Developing and maintaining open source utilities, mainly for the Nix ecosystem.

Mid-Level Software Engineer	Squarespace	2019 - 2021
------------------------------------	--------------------	--------------------

- Helped develop a new Content Management System and contributed to several other back-end services such as the social accounts integration, website analytics platform, search platform, etc.

Software Engineering Intern	Meta (Facebook)	Summer 2018
------------------------------------	------------------------	--------------------

- Developed a web application to automate the onboarding of other teams onto the message/notification delivery platform for Messenger.

Data Engineering Intern	Pinterest	Summer 2017
--------------------------------	------------------	--------------------

- Saved developers time by making a web application to automate data pipeline setup for new Kafka topics.

ML Research Assistant	Rutgers University	2017 - 2018
------------------------------	---------------------------	--------------------

- Developed SVM classifiers for detecting road types based on the type of traffic that they receive.

Teaching Assistant	Rutgers University	2016 - 2017
---------------------------	---------------------------	--------------------

- Led five classes of 15 students each in Introduction to Computer Science. Conducted workshops, provided tutoring, assisted with debugging, and graded assignments.

HackNY Fellow / SWE Intern	HackNY / Skillshare	Summer 2016
-----------------------------------	----------------------------	--------------------

- Worked across the front-end and back-end to add new features to the site.

Skills

Areas	Full-Stack Web Development, Web APIs, CLIs, DevOps
Technologies	Spring, Flask, React, Nix, MongoDB, Elasticsearch
Languages	Python, JavaScript, Java, HTML, CSS, Bash, C, PHP, Hack
